

RAS GRANTS 2006

Date Submitted	Title/Purpose	Applicant and Org.	Amount Requested	Amount Awarded
25.08.2005	A Lecture on Astronomy for Schools and Subsequent Project (Contribution to the purchase of a Celestron NextStar 4GT or similar telescope as a prize associated with the project)	Mr Paul V. COPE FRAS On behalf of Launchpad for Learning Limited	£1,200	£200
27.09.2005	Case for support to attend Fall AGU meeting in San Francisco	Ms Alexandra LAW FRAS Space and Atmospheric Physics Group Blackett Laboratory Imperial College	£990	£500
07.11.2005	Participation in the Rosetta OSIRIS Project	Dr Stephen LOWRY FRAS Queen's University Belfast Dept. of Physics and Astronomy Belfast	£1,000	£250
16.11.2005	Support to attend the 8 th International Conference on Substorms	Dr James WILD FRAS Dept. of Communication Systems Infolab21 Lancaster University	£1,620	£735
22.12.2005	Cambridge N-Body School	Dr Sverre AARSETH FRAS Institute of Astronomy Cambridge	£8,000	£2,000 Further Award of £3,000 subject to the Lectures being published
02.01.2006	Funding for Presentation of a Study of Archival SCUBA Galaxy Cluster data	Mr Michael ZEMCOV FRAS School of Physics & Astronomy Cardiff University	£600	£300

25.01.2006	Infrared Dark Clouds, Protostars & Methanol masers	Dr Mark THOMPSON FRAS Centre for Astrophysics Research STRI University of Hertfordshire	£1,650	£1,550
27.01.2006	Support for the 15 th European Workshop on White Dwarf	Dr Ralf NAPIWOTZKI FRAS University of Hertfordshire	£5,000	£2,000 Further Award of £3,000 subject to the Lectures being published
28.01.2006	Probing the Structure of the Interstellar Medium	Prof. Peter SARRE FRAS School of Chemistry The University of Nottingham	£930	£930
30.01.2006	Developing a catalogue of Solar Energetic Particle events	Dr Silvia DALLA FRAS School of Physics and Astronomy University of Manchester	£1,085	£1,085
30.01.2006	The alignment of mass and light in Deep Lens Survey galaxy clusters	Dr Sarah BRIDLE FRAS Dept of Physics and Astronomy UCL	£1,750	£1,750
30.01.2006	Predictions for the clustering of high-redshift galaxies	Prof. Carlos S. FRENK FRAS Institute for Computational Cosmology Dept of Physics University of Durham	£1,800	£1,550
30.01.2006	Travel to Asia Oceania Geosciences Society (AOGS) third Annual Meeting, Singapore, 10-14 July 2006	Dr Marina GALAND FRAS Imperial College London Blackett Laboratory	£900	£600
30.01.2006	Travel to Asia Oceania Geosciences Society (AOGS) General Assembly, Singapore 10-14 July 2006	Dr Ingo MUELLER-WODARG FRAS Imperial College Blackett Laboratory	£900	£600

30.01.2006	Origins of Small Scale Structure in the Aurora: spectroscopic and radar observations	Dr Betty LANCHESTER FRAS School of Physics and Astronomy Southampton On behalf of Ms Hanna DAHLGREN Alfven Laboratory, Stockholm, Sweden	£1,750	£850
30.01.2006	The composition of carbon-rich, extremely metal-poor stars	Dr Sean RYAN FRAS Centre for Astrophysics Research - STRI University of Hertfordshire	£1,630	£1,550
31.01.2006	Undergraduate Research Bursary “Tracking the early stages of star formation: the sulphur problem”	Dr Serena Viti Dept of Physics & Astronomy UCL	£1,400	£1,400
01.02.2006	Funding for attendance of conference “The 37 th Lunar and Planetary Science Conference”, March 13-17 2006, League City, Texas, USA	Miss Katherine JOY FRAS Dept of Earth Sciences UCL	£650	£400
