

## **Professor Roberto Trotta: 2020 Annie Maunder Medal**

For nearly two decades, Professor Roberto Trotta has married his role as a world class researcher with a dedication to promoting the public understanding of Cosmology and Astrophysics with innovative activities.

He has focused on underserved audiences, for example by creating novel, edible metaphors for some of the universe's most complex ideas. Professor Trotta interacts with thousands of members of the public and school students with talks, his book and innovative experiences. He encapsulates the highest ideals of the Annie Maunder Medal.
